

T.A.S. FORCE – RAG Knowledge Base

Source: <https://tas-force.com/de/> Generated: June 2026

1. Company Overview

Full name: T.A.S. FORCE GmbH **Founded:** 2020 **Headquarters:** Paul-Dessau-Str. 5, 22761 Hamburg, Germany **Website:** <https://tas-force.com> **LinkedIn:** <https://www.linkedin.com/company/tas-force/> **Industry focus:** Automotive OEMs, Tier-1 and Tier-2 suppliers **International offices:** Germany, Poland, Romania, Turkey **Languages:** German and English (bilingual website)

T.A.S. FORCE GmbH is a specialised implementation partner for the automotive and supplier industry. The company is not a classic strategy consultancy but a hands-on task force of experienced industry leaders and operational experts. Its mission is to solve difficult challenges in Supply Chain, Production and Quality – quickly, structurally and with measurable success.

Tagline: "Wir sichern Lieferfähigkeit, steigern Produktivität, schützen kritische Geschäftsprozesse und schaffen Strukturen, die bleiben." (We secure delivery capability, increase productivity, protect critical business processes and create structures that endure.)

The company describes itself as pragmatic, precise and performance-strong. Its differentiator versus classic consulting firms is direct on-site implementation (Shopfloor presence), rapid mobilisation with a response time under 24 hours, and a results-oriented approach with measurable KPIs.

Name origin: The acronym T.A.S. stands for the initials of the three founders – Thomas, Arash and Soroush. "Force" is both a promise and a positioning: the company presents

itself as a powerful, implementation-oriented unit – a real task force with operational depth.

2. Services (Leistungen)

2.1 Operations

- Task Force Management – rapid stabilisation of acute production crises
- Efficiency Programmes (Effizienzprogramme) – structured improvement of OEE and throughput times
- Shopfloor Management – direct presence and management on the production floor
- Relocations and Industrialisation (Verlagerungen & Industrialisierung) – complete plant moves and industrialisation of new sites
- Lean Management and Process Optimisation – 5S, SMED, value stream mapping, continuous improvement (KVP)

2.2 Purchasing and Supply Chain Management (Einkauf & Supply Chain Management)

- Supplier Management (Lieferantenmanagement) – supplier audits and development
- Supplier Relocation (Lieferantenverlagerung) – managed transfer of supplier production capacities
- Task Force Management for Suppliers – on-site crisis intervention directly at suppliers
- Cost Optimisation in Purchasing (Kostenoptimierung im Einkauf) – identification of savings potentials
- Supplier Risk Management (Lieferantenrisikomanagement) – risk mapping and mitigation

- Supply Chain Transparency and ESG Compliance (Lieferkettentransparenz & ESG-Compliance) – LkSG- and CSRD-ready reporting

2.3 Quality Management (Qualitätsmanagement)

- Optimised Quality Organisation – QM structure design and implementation
- Sustainable Complaint Management (Nachhaltiges Reklamationsmanagement) – 8D methodology, root cause elimination
- Reduction of Quality Costs – total cost of quality approach
- Operative Quality Excellence – IATF 16949, APQP, PPAP, SPC
- Certification Support (Zertifizierungsbegleitung) – preparation and accompaniment of audits

2.4 Cybersecurity

- Supply Chain Cybersecurity – cyber risk management across the supply network
- OT/IT Security and Industrial Cyber Resilience – protection of production and operational environments
- NIS-2 and Regulatory Compliance – gap analysis and implementation roadmap
- Cybersecurity Strategy and Governance – policy frameworks, CISO support
- Cyber Incident Response in Industrial Operations – crisis management for OT/IT incidents
- Cyber Third-Party Risk Management – vendor cyber assessments

2.5 Restructuring and Transformation (Restrukturierung & Transformation)

- Operational Turnaround and Restructuring – fast stabilisation of distressed operations
- Distressed Turnaround Management – insolvency-adjacent situations
- Transformation and Organisational Development – new operating models

- Change Management and Communication – employee and stakeholder engagement

2.6 Digital Solutions (Digitale Lösungen)

- Data Analytics and Data-Driven Operations – real-time dashboards, KPI systems
- AI Solution Development – AI-powered process tools
- Robotic Process Automation (RPA) – automating repetitive workflows
- ERP Transformation – SAP and other ERP roll-outs and migrations

2.7 Automotive SPICE and Process Compliance

- ASPICE readiness assessments and gap analyses
 - Process implementation for development organisations
 - Audit-ready structures for OEM assessments
-

3. Clients and References

T.A.S. FORCE serves OEMs and Tier-1/Tier-2 suppliers. The following clients are referenced on the company website:

Mercedes-Benz, Porsche, MAN, AMG, Daimler Truck, Schaeffler, Knorr-Bremse, KION Group, Dräxlmaier, Eberspächer, Vitesco Technologies, Paragon, WOCO, TK Elevator (TKE), NBHX, Microvast

Selected Success Stories

War stops leather seat production – premium OEM faces supply collapse T.A.S. FORCE rapidly secured alternative supply sources and stabilised production for a premium OEM after war disrupted a critical leather seat cover supplier.

Relocation of four German plants to Poland – Tier-2 injection moulding Managed end-to-end relocation of four production facilities from Germany to Poland, covering logistics, supplier transfers and run-at-rate qualification.

Global Tier-1 supplier in crisis – T.A.S. FORCE leads turnaround Operational turnaround of a globally operating Tier-1 supplier in acute financial and operational distress, including leadership stabilisation and process redesign.

Best-Cost-Country Sourcing: global supplier landscape realigned Comprehensive resourcing project moving procurement to best-cost countries while maintaining quality and delivery standards.

4. Key Performance Figures

- Response time to on-site deployment: under 24 hours
 - Projects with acute production risk successfully stabilised: 50+
 - International relocations executed in 6 countries: 10+
 - Average backlog reduction at supplier interventions: over 80%
 - Countries with own offices: 4 (Germany, Poland, Romania, Turkey)
 - Year of foundation: 2020
 - Founders' prior shared industry collaboration: 20+ years
-

5. Founders and Management Team

5.1 History

T.A.S. FORCE was founded in 2020 by Dr. Thomas Dückers, Arash Farsian and Soroush Farsian – united by decades of shared industrial experience, deep mutual trust and a

family friendship spanning over 20 years. The roots reach back to a joint venture producing axle components for ZF Lemförder in the Middle East. Since then the three founders have collaborated on numerous projects: restructurings, plant closures, production relocations, post-merger integrations and series launches – at companies including Richard Fritz, Pearl Stream and other Tier-1 suppliers. The company was founded with a clear ambition: not to be a classic consultancy but a specialised task force with genuine implementation competence.

5.2 Founders

Dr. Thomas Dückers – Co-Founder 40+ years of leadership experience in the global automotive industry. Former board member and CEO at ZF, Johnson Controls, Kostal and Bharat Forge. Has served as CEO/CRO for multiple automotive suppliers. LinkedIn: <https://www.linkedin.com/in/thomasdueckers/>

Arash Farsian – Co-Founder and Managing Director Background in mechanical engineering and production management. Former plant manager at Richard Fritz. Led strategic projects for AMG, Knorr-Bremse and KION. LinkedIn: <https://www.linkedin.com/in/arash-tas-force/>

Soroush Farsian – Co-Founder and Managing Director Background in mechanical engineering and industrial engineering. Former plant manager at Burkhardt Kunststoff / Pearl Stream. Former Head of SCM at SOMEIO. Project leadership for BMW, Mercedes-Benz and KION. LinkedIn: <https://www.linkedin.com/in/soroushfarsian>

5.3 Advisory Board

Frank Deiß Former Chairman Mercedes-Benz Drive Systems and VP Production Powertrain. Former plant manager Mercedes-Benz Untertürkheim. President and CEO Beijing Benz Automotive Corporation. Global Head of Procurement Mercedes-Benz Cars and Vans. LinkedIn: <https://www.linkedin.com/in/frank-deiß-a86736142>

Joachim Goldbach Former VP Purchasing and Supplier Network, BMW Group. Former Head of Purchasing, BMW South Africa. LinkedIn:

<https://www.linkedin.com/in/joachim-goldbach-8580148/>

Simon Saba Former SVP Global Procurement, Knorr-Bremse. Global Head of Procurement, Eisenmann. Director Global Procurement, SKF. VP Procurement, MAN. Chief Procurement Officer, Keenfinity Group. LinkedIn:

<https://www.linkedin.com/in/simon-saba-a3a5464/>

5.4 Country Managers

Gerhard Gröhser – Managing Director T.A.S. FORCE Romania Specialist in plastics technology, toolmaking and quality management. Led greenfield projects and production relocations in Poland, Germany and Romania (e.g. ESSER Group, ENEC SRL, NTI SRL, Luxshare-Tech). Restructuring experience at FORVIA HELLA and SuK Kunststofftechnik. LinkedIn: <https://www.linkedin.com/in/gerhard-gröhser-743a62125/>

Aleksandra Kuczyńska – Country Manager T.A.S. FORCE Polska Senior consultant with project management responsibility in metal component manufacturing. Deep expertise in lean manufacturing, industrialisation and quality management. LinkedIn: <https://www.linkedin.com/in/aleksandra-kuczyńska-528431229/>

Tarik Eginç – Country Manager T.A.S. FORCE Türkiye Head of Procurement at KRONE Trailer. Purchasing Manager at ZF Lemförder. Procurement and Quality Manager at EGE ENDUSTRI. LinkedIn: <https://www.linkedin.com/in/tarik-eginç-26907b73/>

5.5 Centers of Excellence (CoE)

Klaus-Dieter Lengelsen – Head of CoE Operations 40+ years of leadership in the automotive supply industry. Former COO Kienle + Spiess Group. Former MD Walloschke. Led international plant builds at WKW and Electrolux. Expert in restructuring, production relocation, lean operations and manufacturing technologies. LinkedIn: <https://www.linkedin.com/in/klaus-dieter-lengelsen-6a46bb78/>

Felix Heidinger – Head of CoE Procurement and Supply Chain Management Background in production engineering and supply chain management. Leads

interdisciplinary task forces in purchasing and supply chain. Responsible for critical production relocations and securing delivery capability. LinkedIn: <https://www.linkedin.com/in/felix-heidinger/>

Dr. Dan Tulvan – Head of CoE Quality Management 25+ years in the automotive industry. General Manager Takata Romania. General Manager Hirschmann Romania. Quality Manager and Operations Manager BOS Automotive Romania. Lean Six Sigma Black Belt. IATF 16949 Auditor. LinkedIn: <https://www.linkedin.com/in/tulvan-dan-ba5ab144/>

6. Office Locations

Germany (Headquarters) T.A.S. FORCE GmbH Paul-Dessau-Str. 5 22761 Hamburg Germany

Poland T.A.S. FORCE Polska Sp. z o.o. ul. Sucha 3 50-086 Wrocław Poland

Romania T.A.S. FORCE Romania S.R.L. Strada Tăpia 9 300 254 Timișoara Romania

Turkey T.A.S. FORCE Türkiye Ltd. Şti. Mansuroğlu Mah. 286/3 Sk. 14/B 35535 İzmir Turkey

Why local presence matters

Local Expertise: Consultants are based in their respective countries, speak the local language and know the regulatory environment and industrial culture of the region.

Cultural Understanding: Regional negotiation and decision-making styles are factored in from day one, reducing friction and accelerating project progress.

Rapid Mobilisation: Short travel distances allow on-site intervention within 24 hours, stabilising critical situations before they escalate.

Established Networks: Long-standing relationships with suppliers, sub-suppliers and authorities simplify coordination and open additional options.

Cost Efficiency: Local teams reduce travel and ancillary costs, enabling focused investment in actual problem-solving.

Deep Market Knowledge: T.A.S. FORCE knows the structures, capacities and risks of regional supplier landscapes and targets interventions where they deliver the greatest operational benefit.

7. Company Values

Excellence (Exzellenz) T.A.S. FORCE strives for excellence in every project through high professional standards, continuous improvement and uncompromising quality orientation. For clients this means solutions that work – sustainably, measurably and professionally implemented.

Honesty (Ehrlichkeit) Open, clear and transparent communication – even when uncomfortable. Honesty creates trust and is the foundation for partnership at eye level.

Responsibility (Verantwortung) Full ownership of recommendations, actions and results. Clients can rely on T.A.S. FORCE to think ahead, co-design and stand accountable for project success.

Integrity (Integrität) Acting by fixed principles – reliably, loyally and with high ethical standards. Decisions are guided not by short-term advantage but by long-term trust and shared success.

8. Expertise and Insights Areas

T.A.S. FORCE publishes thought leadership and expertise content in the following

domains:

Restructuring and Transformation

- Operational Turnaround and Restructuring
- Distressed Turnaround Management
- Transformation and Organisational Development
- Change Management and Communication

Digital Solutions

- Data Analytics and Data-Driven Operations
- AI Solution Development
- Robotic Process Automation (RPA)
- ERP Transformation

Automotive SPICE and Process Compliance

- Process maturity assessment
- ASPICE readiness for development organisations
- Audit-ready structure build

9. Contact and Career
